Front Door Installation for Challenger, Magnum, Charger, 300C

1. Using a pick tool pry open the screw covers behind the interior door release lever and below the arm rest and remove the screws. Fig. 1
2. Remove the four screws securing the door panel along the bottom. Fig. 1
3. Using the end of a Phillips screwdriver gently depress the center pin of the three plastic retainers securing the door panel. The center pin of the plastic retainer should depress approximately 1/8" and allow the retainer to be removed from the door panel. The two uppermost retainers do not need to be removed in order to remove the door panel. Fig. 2

2007-2010 Chrysler Sebring (Premium Audio Only)
2008-2011 Dodge Challenger
2011 Chrysler 200
Installation Instructions

4. Using a panel removal tool gently pry the door panel away from the door.
5. Disconnect the door handle linkage by rotating the blue plastic latch and pulling the linkage rod loose. Fig. 3
6. Disconnect door wiring and set door panel aside.
7. Remove the existing speaker and its mounting adapter. The replacement speakers come with new adapters to allow more mounting depth and clearance of the speaker magnet from components inside the door. Fig. 4

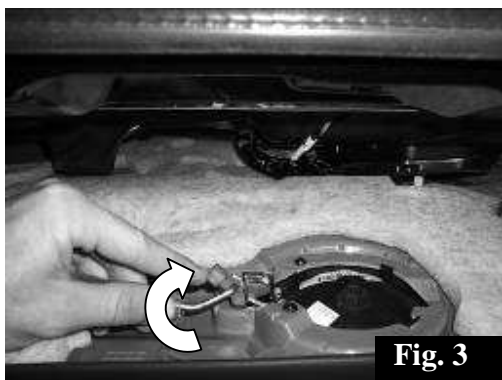

Fig. 3

Fig. 4

8. Connect the speaker wiring and install the upgrade speaker. Fig. 5
9. Reset the plastic door panel retainers by pushing the center pin back through the retainer two clicks. The retainer can now be reinstalled in the door panel. When you have the retainer in place press the center pin in one click to lock it into place and secure the door panel. Fig. 6

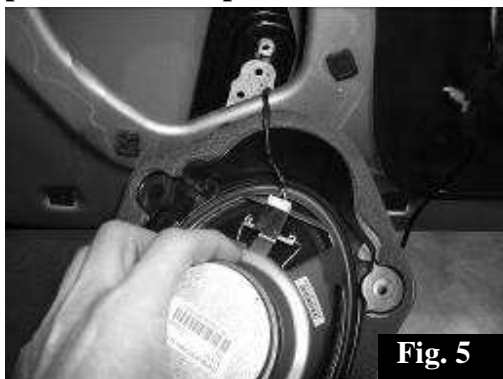

Fig. 5

Fig. 6

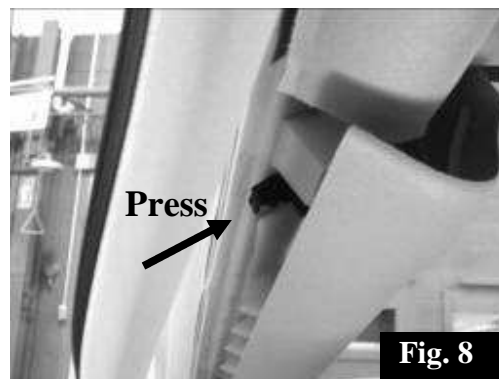

10. Replace all previously removed parts in reverse order.

2011 Chrysler 200
Installation Instructions

Dash Speaker Installation for Dodge Challenger, Charger and Magnum
(For Dodge Challenger start with step 6)

1. Pull the rubber door molding away from the A pillar location. Fig. 7
2. Gently pull the A pillar cover to release the snap clips retaining it. The cover will not come completely loose until you press the sides of the black plastic retainer cup behind the cover. Using your index finger press on the sides of the retainer cup while gently pulling the cover toward the center of the car. Fig. 8

3. Rotate the A pillar cover back and forth toward windshield to release it from the dash. Fig. 9
4. Remove the plastic retainer cup from the back of the A pillar cover and replace it in the hole in the metal of the A pillar. Fig. 10
5. Repeat steps 1-4 on both sides of vehicle.

2007-2010 Chrysler Sebring (Premium Audio Only)
2008-2011 Dodge Challenger
2011 Chrysler 200
Installation Instructions

Dash Speaker Installation for Dodge Charger and Magnum (continued)

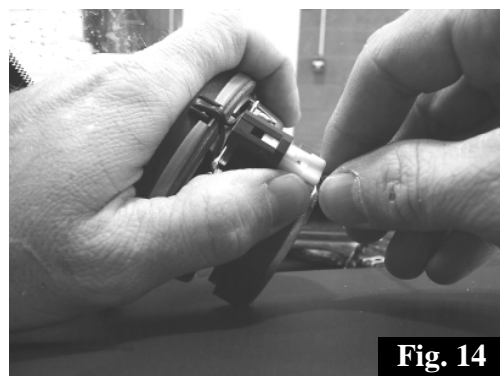

6. Starting at one end and working across the dash, use a panel removal tool to gently pry up on the dash speaker cover to release the metal fasteners. Fig. 11
7. With the dash cover removed you can now remove the two screws retaining each speaker.
8. Disconnect speakers and remove.
9. Connect speaker wiring and install upgrade speakers. Fig. 12

10. Replace all previously removed parts in reverse order.

Dash Speaker Installation for Chrysler 300C

1. Using a panel removal tool gently pry the speaker grills upward to release retainers. Fig. 13
2. Remove the existing speakers and disconnect wiring.
3. Connect the speaker wiring and install the upgrade speakers. Fig. 14
4. Replace speaker grills.

Installation Instructions

TOOLS REQUIRED:

***Phillips Screwdriver*10mm Nut Driver*Panel Removal Tool*Window Crank Removal Tool*Pick Tool**

Door Speaker Installation for Dodge Ram Truck

1. Using a 10mm nut driver remove the bolt securing the door handle. Fig. 15
2. For models with manual windows use a window crank removal tool to disengage the pin securing the window crank and pull window crank from door. Fig. 16
3. Remove the four screws securing the door panel. There are two along the bottom, one behind the door handle and one at the top of the door panel.
4. Remove the door panel by lifting upward.
5. Disconnect door wiring and set door panel aside.
6. Remove the screws securing the speaker, disconnect wiring and remove speaker.

7. On a workbench carefully pry the speaker spacer ring loose using a panel removal tool. Fig. 17
8. Remove the upgrade speaker from the adapter it is shipped in, it will not be used for this vehicle.
9. Reattach the spacer ring onto the upgrade speaker.
10. Install the upgrade speaker, replace screws and tighten. Fig. 18

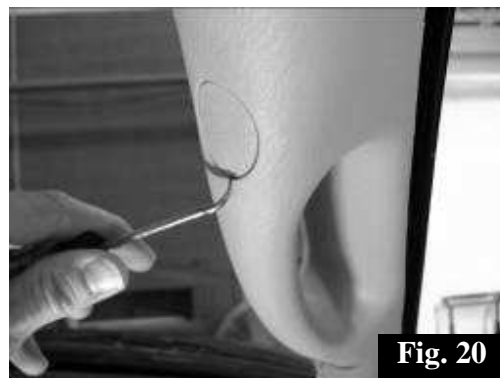

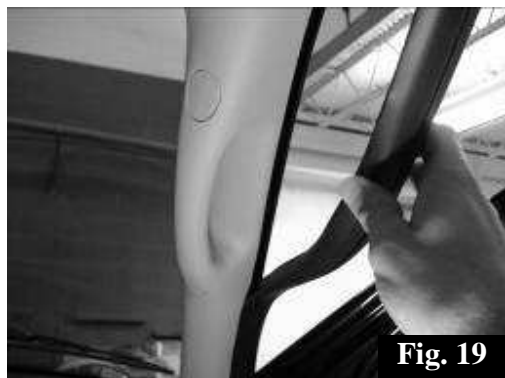

11. Reinstall all previously removed parts in reverse order.
